Forecast for Saturday 24 Oct 2020

Weather: Heavy rain, with summit sleet at first and very windy with storm force winds on the tops and ridges. Brighter conditions soon arriving from the west in the morning with blustery showers, these heavy and falling as snow above 800m. Small chance of hail and thunder.

Chance of cloud free mountain/hill tops above 800m: Very little chance at fist with extensive cloud down to 500m. Becoming 50% by afternoon with frequent cloud above 600 or 700m, occasionally down to lower slopes in showers.

Visibility: Poor at most elevations at first. Air clarity soon becoming good but with sudden deteriorations as showers pass over. Very poor at times on the tops in wintry showers and low cloud.

Met Office Aberdeen Meteorologist's View
Very windy conditions at first with gusts of 70-80mph on summits and ridges. Cold, windy and showery conditions through the rest of the day with a severe wind chill on the tops.

Forecast for Sunday 25 Oct 2020
Weather: Bright or clear spells and showers, some heavy with snow on the Munro tops. A small risk of hail and thunder. The showers may merge into a longer spell of rain and summit snow late afternoon and evening. Strong, gusty winds with severe wind chill on the tops.

Maximum wind: Mainly South or Southwest 30-35mph, with squally gusts of 50-60mph at times.

Chance of cloud free mountain/hill tops above 800m: 30%. Frequent cloud above 600m, with patches on lower slopes. Becoming more extensive in the west from late afternoon.

Visibility: Often poor on high slopes with low cloud and wintry showers. Excellent visibility at times between showers, especially in the east.

Temperature: **Glens:** Plus 6C rising to 9 or 10C.
At 800m: Plus 2C rising to 4C in afternoon.
Freezing level: 1000m rising to 1300m in afternoon.
